Through our extensive net-work of world-class manufacturers and vendors, TriStar can produce each kit, bag, box, case, assembly or any other type of exclusive packaging to meet customer specifications.

TriStar provides a broad spectrum of kit & assembly services for any standard, stock/shelf, partially assembled, on-demand or customized kits. Regardless of a simple kit of wiring and installation instruction or a multipart combination of options, TriStar can assemble, select, package and ship just about anything.

Select one service or take advantage of TriStar's fully integrated services to realize the most cost and time effective benefits.
